

Disaster Reduction Roundtable for Enhancing Resilience

Organized by:
Minister of State for Emergency Preparedness
Consulate General of Japan
UBC Centre for Japanese Research

Purpose of this roundtable:

- To share with Canadian policy makers and disaster management practitioners, the hands-on experiences of Japan and to have exchange views.
- To raise awareness towards disaster reduction in Canada.
- To share the tested Japanese earthquake engineering expertise with the scientific community and the construction industry in Canada and to have dialogue among participants
